Honda Power Equipment has many different versions of each model, each for a different application. The best and most accurate way to be sure you are getting the right parts for your specific product is to enter the serial number.

Honda Power Equipment - Parts Look Up - Official Site

The purpose of this filter is to help eliminate dirt, dust, and debris from contaminating the carburetor and damaging the engine. A dirty air filter can prevent the engine from operating properly. This filter can be cleaned a time or two by using an air supply, but it is advised to replace it once it becomes dirty.
