Open Library is an initiative of the Internet Archive, a 501(c)(3) non-profit, building a digital library of Internet sites and other cultural artifacts in digital form. Other projects include the Wayback Machine, archive.org and archive-it.org

The Emerging Mind | Open Library

An Emerging Mind. Part of the Darwin exhibition. Darwin began the Beagle voyage green and inexperienced, but he finished a seasoned naturalist. And while he never lost his wonder and patience for close observation, on the Beagle he grew from a wide-eyed observer into a profound analytical thinker who increasingly found patterns in what he saw.
